Professional Summary

Full-Stack Developer with a strong focus on Next.js, TypeScript, and modern web architectures.
Experienced in building production-ready web and desktop applications, including role-based systems, PWAs and offline-first desktop apps.
Comfortable owning features end-to-end, from database design to polished UI and performance optimization.

Core Technical Skills

Primary Stack: *Next.js (App Router), React, TypeScript, Tailwind CSS, Framer Motion, Shadcn/ui*

State Management & Data: *React Query, Redux Toolkit, Zustand*

Back-End & Database: *Node.js, Express.js, Prisma, PostgreSQL, MongoDB*

Additional Experience: *PWA, Push Notifications, Auth.js, Better-auth, Middleware, Electron.js + Sqlite*

Projects

Doctor Booking Appointment ⤴

- Designed and implemented a full-stack appointment booking system used for real-world medical scheduling.
- Built secure role-based access control (Doctor / User) with protected routes.
- Implemented PWA features and real-time push notifications to increase user engagement.
- Focused on scalability and clean architecture using Prisma and PostgreSQL.
- **Tech:** Next.js, TypeScript, Prisma, PostgreSQL, Auth.js, PWA.

Desktop Dashboard Application ⤴

- Developed a cross-platform desktop application for managing sales, inventory, and financial operations.
- Implemented offline-first architecture using SQLite for reliability.
- Designed complex features such as installment sales, invoice export, barcode-based product search, and Excel reporting.
- Focused on performance and maintainability in a real desktop environment.
- **Tech:** Electron, React, TypeScript, SQLite, Tailwind, Zod.

café Darchin ⤴

- Built a full-stack restaurant platform with an admin dashboard for managing reservations, menu items, and reviews.
- Implemented secure authentication, protected routes, and admin-only features.
- Added PWA support and smooth UI animations to enhance the user experience.
- **Tech:** next.js, typescript, tailwind.css, react-query, prisma, postgresql, shadcn, resend, pwa, framer-motion.

Portfolio ⤴

- Designed and developed a modern, responsive portfolio focused on showcasing real-world projects, Email Notification with Resend Api, And Implemented PWA.
- **Tech:** next.js, typescript, tailwind.css, shadcn, framer-motion, resend, pwa.

Education

- **Bachelor of Electronic Engineering** | North Technical College, 2015–2017
- **Relevant Coursework:** Next.js, React.js, typescript, Node.js, Express.js
